

Columbia College Computer Science Club

CCCS students

September 8, 2011

Table of contents I

- 1 Agenda
- 2 Introduction
- 3 Review of Last Semester
- 4 Current Activities
- 5 Future Plans
- 6 Establish a Regular Meeting Time
- 7 Suggestions

Agenda for this meeting

- **Introduction of the club**
- **Review of last semester**
- **Current Activities**
- **Future plans**
- **Establish a regular meeting time**
- **Suggestions**

Introduction I

Columbia College Computer Science Club, or CCCSC for short, is an official club affiliated to Columbia College that exists primarily to further the cause of Columbia College Computer Science Department.

We strive to provide Columbia College students with opportunities to put what they learn in classes in practice with a hands-on approach, to introduce them to resources that are otherwise unavailable in class, to build a network of students and alumni and provide help with any other concerns they may have.

Introduction II

The club comprises of members from across Columbia College. Any and all Columbia College student, regardless of Majors, are welcome to join.

The club also has provision for Specific Interest Groups, otherwise known as SIGs, for people interested in specific fields such as Game Development, Computer Graphics, Artificial Intelligence, Networking, Bioinformatics etc.

The club generally hangs out in the Computer Science Lab located at STC 321.

Review of Last Semester

- **Official Establishment of the club**
- **Official UPE initiation ceremony**
- **Trip to Carfax**
- **Establishment of Cougar Coders, a Specific Interest Group focusing on Game Development.**
- **Movie Showings**
- **Gamer's Day**
- **CS Welcome Lunch**
- **End of Semester Dinner**

Current Activities

- **Tutorials on using Linux, Unix or related OS and Virtual Machines.**
- **Tutorials on Latex**
- **Regular bi-weekly Meetings**
- **Cougar Coders - Game Development**
- **Web Development Tutorials**

Future Plans

- **Service Projects** such as going to schools in the community helping introduce programming to High Schoolers
- **Reach out to more Columbia College students** - especially from related majors such as Maths, Graphics Design etc.
- **More tutorials**
- **Actively Changing...**

Establish a Regular Meeting Time

We need to decide upon a time to regularly meet for the club. Please choose all the timeframes you can meet for the club from the available options handed out. If you have any concerns or suggestions about meetings, let us know after the lunch.

Suggestions

If you have any questions, please raise them.

If you have any concerns, suggestions or anything of the sort, please contact us.

You can come up to the CS Lab to meet us or write an email to ccsofficers@googlegroups.com anytime you want about any relevant topic.

Thank you for your time.
